**Best Experience:** Family, Activities, Beach, Nightlife, Value

Kandima is a "new look" of the Maldives combining wild parties in the beach club, extensive dining options and even a chance to see the dolphin from the bathroom. It's about genuine hospitality with a human face and clever solutions that use the latest innovations, not to mention the playful spirit of a private island. Kandima was a late-comer to the Maldivian tourist market and is markedly different to the classic honeymooner resorts. It's aimed at sports-loving, party-going groups as well as couples and active families, and has a range of accommodation options, from affordable studios to luxury pool villas.

Located on a lush tropical island in Dhaalu Atoll is just a 30-minute flight from Velana International Airport, Kandima offers a choice of 266 stylishly designed studios and villas, with 11 different categories to choose from. The four-star plus resort has first class facilities, boasting the largest pool in the Maldives, tennis courts, an art studio, a marine biology school, a kids club, a game room, a library, a gym, a yoga studio and a spa.
