

Kandima Maldives launches the Hyperbaric Chamber facility at its game changing lifestyle resort

10 November 2021, Maldives: Kandima's Maldives visionary commitment has always been to lead extraordinary endeavors to a healthier living with safety at the heart of every promise. Kandima has yet again taken another step in adding differentiation to the resort's offerings, not only to its guests but also the local community in the Maldives. Celebrating a new kool feather in its cap, Kandima inaugurated its new hyperbaric chamber facility today in the presence of many VIP designatory from Dhaalu Atoll and showcasing an in-depth interactive demonstration at its state-of-the-art medical facility on the island.

Being referred as a true active lifestyle resort in the Maldives, Kandima has left no shells unturned when it comes to delivering a guest commitment and community expectation that is anything but ordinary.

This hyperbaric chamber facility is the only such facility in the entire Dhaalu Atoll and other neighboring Atolls and will facilitate to bridge a gap for such a facility in the Maldives. This new addition to Kandima's fully equipped medical facility at the resort marks another strong milestone to its progressive brand commitment.

About: Hyperbaric chamber, also called decompression chamber or recompression chamber, sealed chamber in which a high-pressure environment is used primarily to treat decompression sickness, gas embolism etc. The purpose a decompression hyperbaric chamber is to allow surface-supplied gas divers to complete their decompression stops in a chamber rather than underwater. The therapeutic principle behind hyperbaric oxygen therapy lies in its ability to drastically increase partial pressure of oxygen in the tissues of the body. In other words, cells repair themselves more efficiently when exposed to a higher oxygen content via the blood.

About Kandima Maldives
